Who We Are

Come to Clermont Aesthetic Care and Anti-Aging and let our highly trained team of medical doctors and professionals enhance your natural beauty. Offering a wide range of aesthetic treatments, Clermont Aesthetic Care and Anti-aging is central Florida's leading name in medically proven beauty treatments. Our exclusive Private Label skin-care line is the doctors' choice for ageless beauty, and is backed up with the most up-to-date medi-spa services and prescription-only programs. Clermont Aesthetic Care and Anti-Aging invites you to escape to a world of beauty in a warm and relaxing environment. No one deserves it more than you.

Kristina M. McLean, M.D.

Board Certified

Dr. Kristina McLean graduated from the University Of South Florida with a Bachelor's degree in chemistry in 1994. After graduating from the University Of South Florida College Of Medicine in 1999, she received post graduate studies in Aesthetic Medicine and skin care. Dr. McLean moved to Clermont, FL where she began her private practice, Clermont Obstetrics, Gynecology & Infertility, PA. In 2005 we opened Clermont Aesthetic Care And Anti-aging.

Mary Beth Lewis, M.D. F.A.C.O.G

Board Certified

Dr. Mary Beth Lewis graduated from Bryn Mawr College, with a Bachelors degree in chemistry in 1994. Dr. Lewis graduated from Cornell University Medical College in 1998. In the fall of 2002 she began working in private practice in general obstetrics and gynecology in New York. She is now practicing medicine at Clermont Obstetrics, Gynecology & Infertility, PA.

Jacquie Little, LE

Jacquie graduated with her license in aesthetics in 2000 in South Florida. She then relocated to Lake County where she has been practicing her aesthetics. Jacquie joined Clermont Aesthetic Care And Anti-aging in 2005 bringing with her, her unique techniques and vast skin care knowledge.

Nu-Derm System

OBAGI® transforms the cellular function of the skin to help it look and act younger and healthier. Lose the sun or age spots, hyperpigmentation, fine lines, wrinkles and adult acne. OBAGI® is a prescription-only program to give you the skin you've always wanted - vibrant, healthy and youthful!

BOTOX®

BOTOX® is used as a form of facial sculpting by smoothing fine lines and beautifying your facial features. BOTOX® treats the wrinkles of the frown muscles, forehead lines, and small lines on the sides of the eyes (crow's feet). Our physicians perform this treatment in our office.

Facials & Peels

- Glycolic and Chemical Peels
- Jessner Peel - the "lunchtime" peel (results may be seen after first treatment)

IPL Facial Rejuvenation

Intense Pulsed Light (IPL) revives the skin and reduces sun damage, rosacea, facial vessels, and fine lines. Results may be seen immediately with virtually no down time.

Hair Removal

We can easily remove unwanted facial and body hair less painfully and more reliably than electrolysis. Hair reduction is permanent and can be done on any body part.

ProCyte-Neova

Balancing Science with Rejuvenation. Medical-grade skin care products that incorporate copper, a mineral essential for collagen and elastin production. Maintaining healthy skin is the key to looking and feeling good about yourself. Our goal is to exfoliate dead skin cells, minimize fine lines and wrinkles, even out skin tones and correct evidence of sun damage.

Prevage

Antioxidant cream with idebenone 1%

Reduces the appearance of fine lines and wrinkles restores youthful-looking skin.

Restylane Lip Enhancement

A natural product that fills scars and lines around the mouth and plumps up lips. Restylane gives you glamorous and fuller lips, while smoothing out the wrinkles around lips and frown lines.

Radiesse Dermal Filler

Our physicians can smooth out deep-set wrinkles, improve the appearance of deeper frown lines and nasal furrows.

Unlike other fillers, Radiesse is not absorbed by your system. Your results are immediate and long-lasting. It is soft and remains pliable for years. It is a safe, natural solution that does not provoke any allergic reaction.

Mesotherapy Fat & Cellulite Reducer

Mesotherapy is an exciting and effective office treatment to reduce fat and cellulite. This all-natural, medication may have results after the first treatment. Mesotherapy comes in either allopathic or homeopathic forms.

Vibraderm

Vibraderm is the next generation in microdermabrasion. It exfoliates the skin while creating new collagen and firmer skin tone with minimal downtime.
